

Hi, my name is Chris Hargreaves, this will be my 7th year at Dara Academy and I'm lucky to be teaching Matayom 6 NP again this year.

Dara Academy is a fantastic school and it is a great pleasure to work in the Native Speaker Program with all the teachers, staff, and students.

I really enjoy teaching Matayom 6 and giving the students as much time to practice their English skills as possible. I like to give my students projects and language that will benefit them in their lives in the future and also help them with the university entrance exams and national tests.

I like to keep my classes enjoyable and it's always great when I see the students participating in projects and being creative. Here's to another great year for Dara Academy and the NP Program.
